Jakarta Selatan, DKI Jakarta, Indonesia

Informatics graduate from Institut Teknologi Bandung with practical experience developing a dashboard frontend using React and Next.js, focused on delivering data-driven interfaces for business users. Integrated backend APIs, handled asynchronous data fetching, and managed application state for dynamic updates. Built reusable components and optimized UI performance for handling complex datasets.

## Work Experiences

---

### PT Tribelio Digital Global - Indonesia

Jan 2026 - Present

*Frontend Developer*

- Developed a B2B dashboard frontend to support business operations and data management.
- Optimized company landing page responsiveness and UI consistency.
- Implemented webhook handler using Supabase Edge Functions to process third-party transaction status updates and forward structured data to backend APIs.
- Built a media upload service using Amazon S3 for storage and Supabase for metadata persistence.

### PT Aku Pintar Indonesia - Indonesia

Jun 2022 - Feb 2024

*Product Frontend & Quality*

- Developed 5+ landing pages to boost company website traffic.
- Developed and redesigned 5+ dynamic website pages to enhance company services.
- Assisted the company in migrating 10+ website pages.
- Documented resources used on a webpage to support repeatable usage.
- Conducted website and mobile application tests to identify bugs and ensure implementation conformity.

### PT Aku Pintar Indonesia - Indonesia

Aug 2021 - Feb 2022

*Frontend Developer Intern*

- Developed 4 test pages to help interns familiarize themselves with company technology.
- Developed 2 website pages to enhance company services.
- Participated in a company project to identify new feature ideas.
- Documented resources used on a webpage to support repeatable usage.
- Conducted website performance analysis to identify potential solutions.

### PT Lingkar Reksa Geodata - Indonesia

May 2021 - Aug 2021

*GIS Developer Intern*

- Developed 5+ plugins to enhance company services.
- Documented plugin usage and requirements to clarify their functionality.

## Education

---

### Institut Teknologi Bandung - Indonesia

Aug 2018 - Sep 2024

*Bachelor of Science in Informatics/Computer Science, 3.32/4.00*

- Participated in MBKM x ITB 2021 to gain experience in game development.

## Organisational Experience

---

### Himpunan Mahasiswa Informatika - Indonesia

Sep 2019 - Apr 2022

*Staff of Representative and Supervisor Council*

### HMIF Chairman Election - Indonesia

Oct 2019 - Nov 2019

*Staff of IT Division*

## Skills

---

- **Soft Skills:** Strong Communication Skills, Problem Solving, Teamwork
- **Hard Skills:** ReactJS, Next.js, TypeScript, TailwindCSS, Supabase, Express
- **Language:** Indonesian (Native), English
